Cengage Mindtap Lap Set-up Instructions

You'll need to reach out to our Cengage representative first, and they will give you a URL and other info to get this set-up.

1. Click a link in your Bb Learn course shell/section to one of the Mindtap labs.
   a. Or make a link by going to a "Week" area or other content area, and clicking "Partner Content" and "Content Market."

![Image](https://example.com/1.png)

Click to collapse this area.

b. Then click "CENGAGE Learning."

![Image](https://example.com/2.png)

Click to collapse this area.

2. Find and click the link for the textbook that you are using.
3. Select "Link to an existing course or section."

4. Select the name of your course under "Course Name."

5. Click "Continue."
5. a. If you cannot click "Continue":
   i. Likely, you will see an error message about students already being registered. This happens when students have already clicked existing links to MindTap labs before they were set-up. (Students won’t see anything until you properly set this up.)
   ii. Go back to step 3 above and choose "Copy from an existing course."
   iii. Fill in the course info (course days are not important) "BUT" give the course a SLIGHTLY DIFFERENT name (add "v 2" without quotes or "B" without quotes or something to the course name).

6. a. On the "LINK TO MINDTAP COURSE" screen, select "I want to synchronize individual activity scores."
   b. Click "Continue."

   ![Image of LINK TO MINDTAP COURSE](image)

   **Click to collapse this area.**

   - Under "SELECT YOUR CONTENT PROVIDER BELOW," choose "CENGAGE Learning."
Click to collapse this area.

9. Fill out the rest of the information as you normally would for a new Bb Learn assignment/item.
